**Charlotte, N.C. – August 12, 2015** – Nexcom, a leading mobile solutions provider, has ranked among the nation’s fastest-growing companies on the Inc. 5000 list. The list represents a comprehensive look at the most important segment of the economy—America’s entrepreneurs. Companies such as Yelp, Pandora, Timberland, Dell, Domino’s Pizza, LinkedIn, Zillow and other well-known names gained early exposure as members of the Inc. 500|5000.

“We are proud to have made the Inc. 5000 list for the second time in five years. Nexcom’s growth is a reflection of our forward-thinking employees’ commitment to getting companies the best technology to mobilize their workforce. We anticipate this growth to continue as more companies seek ways to increase productivity using mobile technology,” said Nexcom CEO, Chris Allison.

Nexcom attributes its rapid growth to the company’s strong relationships with its customers. Nexcom began in managed services, and through management foresight has expanded into other offerings including software applications, GPS and IT services.

**About Nexcom**

Based in Charlotte, NC, Nexcom is a mobile management company with award-winning help desk services and field automation software designed for a mobile age. Since 2001, Nexcom has helped organizations save millions of dollars on their wireless spend; created mobile continuity for both security and user experience; and deployed the most advanced mobile CRM and field services software platform. Today, over 500 organizations and one million users trust Nexcom with their mobile ecosystem.
