

Employee Time - Energy

Serving the U.S. energy industry requires going to remote locations and getting the job done. Getting the best people on site requires a good system. JobTrack is the best software to make sure all your employees get paid correctly and on time. With a native iOS app, job foreman easily account for labor, travel and PTO time. The home office manages schedule and shift changes seamlessly and everyone gets paid on time!

A report by IDC Energy Insights Q1Y2014 reveals approximately 50% of energy & utility employees are working as a mobile workforce

JobTrack enables energy and utilities organizations to:

- Collect labor hours, travel time, and PTO
- See labor by the job
- Manage overtime and PTO
- Integrate with payroll systems and accounting software (Viewpoint, Sage, Microsoft, SAP)
